

Welcome to AZPYRO ! Producers of the Lake Powell Fireworks Spectacular

~~The 2010 show features over 1350 shells! (100 more than last year)~~

Page, Arizona - 4th of July 2010 - Latest News

Page, Arizona hosts the largest fireworks display in northern Arizona every 4th of July. The show is set off to a backdrop of scenery that is unmatched in beauty and splendor. An amazing display of over 1350 shells are launched from the rim of the 13th hole on Lake Powell National Golf Course and are visible for miles. With the location and height of the launch site, the show can be viewed by boaters on Lake Powell and throughout the entire city of Page. The show lasts around 25 minutes and consists of over 1350 firework shells ranging from 3" - 8" in size and reaching a height of over 1200' feet!

This years (2010) show promises to be the best fireworks display Page and Lake Powell have ever seen! We have upgraded the show again to over 1350 shells! The display will still last the same amount of time, approx 25 minutes, but will be bigger and more spectacular than ever. This years Grande Finale, featuring 595 shells, promises to be an amazing event of light and sound.(read full details)

Check the City Map for the location of the launch site and viewing areas.

Fireworks Start @ 9:00 PM sharp - (warning shots at 8:30/8:40/8:50)
