

City Map and Viewing

Page Fireworks Site

The launch site for the Page/Lake Powell Fireworks Spectacular is located along the rim of the Lake Powell National Golf Course. This site is most spectacular because it sits 200 feet above the golf course and major viewing areas, adding to the height of the fireworks. The best places to watch the fireworks are located around the Clubhouse and Marriott areas. These viewing spots give you the perfect vantage point, looking up at the fireworks rising off the mesa.

Lake Powell National Golf Course offers entertainment, food and beverages outdoors on their lush lawns prior to and during the fireworks display.

Those fortunate few that own a home directly behind our launch site are really the lucky ones. These home are just outside of the "Fallout Zone", but are as close as anyone can get. Speaking of "as close as you can get"...

Restricted Areas -

- The gravel lot on N. Navajo
- Golf Course Greens 12 & 13
- Golf Course Hole 13
- Rim Trail hole 12 and 13

No One is Allowed within 700 feet of the display site at any time, from any direction, unless you are part of the crew.
